- 9) 地球上から他の惑星に存在する生命を探知できるような望遠鏡が発明された場合。
- 10) 我々の子孫は，我々が今は知らないものを，はるかに多く知ること。

問題 [Ⅲ]

If I were to take a gap year, I would like to visit Russia. I would like to study not only the Russian language but also its history. I hear that St. Petersburg is noted for its history, art, literature and architecture, and like Kyoto in Japan. I had a chance to go to a concert of Mariinsky orchestra from St. Petersburg last December. Mariinsky is also famous as a ballet company, and I really wanted to see their ballet. Although there was no ballet performance then, the music alone was enough to steal my heart. Of course, there are a lot of ballet dancers and orchestras in Japan, but when I saw the performance of westerners, I couldn't help feeling the weight of history. For me, the "gap year" would be a valuable opportunity to be exposed to the real history.
